

**BDO Alto Limited**  
Chartered Accountants

# Corporate finance

We are able to provide advice to clients who are buying, selling or growing their businesses. Our bespoke service covers the following areas:

## **Buying a business**

We are able to undertake acquisition due-diligence on a target company. This work is often performed in conjunction with the following complimentary services:

- Tax structuring advice in respect of the acquisition; and
- Assistance in the preparation of information required by prospective financiers

## **Selling a business**

Our team are able to provide support throughout the entire process, including discussing exit strategies, valuing the business and identifying and liaising with potential acquirers. We are also able to undertake vendor due diligence if appropriate.

## **Raising finance**

We can advise clients on raising finance whether the need arises from expansion, recovery, acquisition or start-up. Our advice can include discussing potential sources of capital, and reviewing the appropriateness of each source of capital, including:

- Debt finance
- Private equity investment
- Capital markets
- Management buy-ins / buy-outs

We can assist in the preparation of all information required by prospective financiers.

## **Under-performing businesses**

We are also able to provide advice and assistance to directors and lenders where businesses are under financial pressures or under performing. We can provide interim or long term assistance, hands on to steer the business around. This often involves appointment of BDO as interim managers controlling the business cash flows, reporting to management and lenders as appropriate and providing guidance on exit strategies.

*Please note that this is not an exhaustive list of services and we would be happy to discuss specific service requirements at any time.*
